"SALADA" TEA

Fresh from the gardens'

Canada Among the Nations

Canadians of all classes can hardly fail to feel a thrilling pride in the rapid strides forward made by their Dominion in the realm of international affairs. Since that fatal day in 1914, when the world was plunged into war, and Canada at once, and without the slightest hesitation, took its place in the front rank of the Allied hosts, the growth of this country in world estimation and influence has been one of the remarkable features of the international scene.

Hardly a year has passed without witnessing some new advance step taken, or some noteworthy achievement added to the record, revealing Canada's new and higher status in the councils of the nations.

Concise, but eloquent, Sir Robert Borden outlined the two decades of Canada's progress and achievement by his speech before the Canadian Pacific Relations now in session at Kyoto, Japan. Since 1927, when the Institute last assembled, Canada had adhered to the multilateral pact for the renunciation of war, given adherence to the optional clause in the statutes of the Permanent Court of International Justice, has exchanged ministerial visits with Japan.

Canada, too, has aligned itself whole-heartedly with Premier Ramsay MacDonald and President Hoover in their fine effort to promote mutual understanding and goodwill between all sections of the English-speaking world, thus paving the way for a larger measure of world disarmament, and making an immensely important advance toward the goal of permanent peace.

Nor has Canada confined its efforts to the signing of treaties and the making of gestures. When the unfortunate incident of the "I'm Alone" arose—a happening which in days gone by might have precipitated almost immediate war, and certainly a feeling of hostility containing the seeds of future strife—Canada, in co-operation through the medium of diplomatic correspondence between Ottawa and Washington, a basis of arbitration was quickly and mutually arranged to satisfy the satisfaction of both nations. Speaking of this correspondence, Sir Robert says:

"The diplomatic correspondence on the subject between Canada and the United States is admirable in tone, and the quick and fact law presented and put out by the two countries is to be commended."

In the Assembly and Council of the League of Nations, Canada's voice is always heard in support of all measures calculated to make for peace. This Dominion is still a real leader at Geneva in all efforts to promote international understanding and goodwill, and in the devising of ways and means to remove the sources of international strife.

Co-included in the rise of Canada as a factor in international affairs is the foreign trade of the Dominion has increased by leaps and bounds until now this country can boast of the second largest world trade per head of population in the world. Its volunteers at Washington, Paris, and Tokyo, are working in this work of creating international goodwill and prestige for Canada by a large and steadily increasing number of trade commissioners in 113 parts of the globe.

Canada's strong position can be made stronger through the united sympathy and effort of the Canadian people. Sir Robert Borden, while visiting the Canadian Pacific Relations in Kyoto, Japan, in the post of the world cannot be assured by trustee alone, nor can it be maintained by force. The same foundation which assures ordered liberty and justice in a modern civilized state must be created on an international scale if it is to endure.

The education and idealism of the people, their inherited respect for law, and their determination to maintain order and justice against crime and lawlessness," Sir Robert said, "are the real foundations upon which stable government rests. In the world there must be an international public opinion upon which will be established between the nations the entrenchment of public right and justice."

The education and idealism of the people, their inherited respect for law, and their determination to maintain order and justice against crime and lawlessness," Sir Robert said, "are the real foundations upon which stable government rests. In the world there must be an international public opinion upon which will be established between the nations the entrenchment of public right and justice."

Canada has this international viewpoint. It is growing stronger, and every Canadian will exert himself or herself to foster it. It is one of the greatest things in the nation and in the world today.

Smallest Aeroplane

The smallest airplane in the world has been developed in Vienna, Austria. Resembling a tiny limousine with wings, the craft is small enough to go into an ordinary garage. It is equipped with a 40-h.p. motor.

Geyseres were discovered and first identified in Denmark in 1821, and were first mentioned in 1823. Scandinavian historian Sæo Grammaticus in his "History of Denmark" in the twelfth century.

The Union of South Africa, in 1821, had a white population of 1,500,000, against 5,000,000 blacks.

Two In One

An old farmer was picked up on the highway and given a lift by a reckless driver. As he got out he said, "Thank you very much for both rides."

"What do you mean—both rides?" asked the benefactor.

"You have given me my first and my last," was the answer.

The earth is likely to be struck by a comet once only in 20,000,000 years, scientists declare.

Almost all the steel engravers in the United States work for the government turning out money.

Acid Stomach

Excess acid is the common cause of indigestion. It results in pain and discomfort after eating and after eating again. You will never realize the corrective methods, never continue to suffer, when you know how quickly, how easily, how effectively Phillips' Milk of Magnesia neutralizes acids. Please let it show you—now.

To 100gms. of Phillips' Milk of Magnesia prescribed 10gms. of Phillips' Milk of Magnesia for 50 years in correcting excess acids. Each bottle contains full directions—any digestive.

Times its volume in acid. It is harmless, non-irritating, non-stimulating. The quick corrective is an alkali which neutralizes acids. The best corrective is Phillips' Milk of Magnesia. It has been used by thousands of physicians in the 50 years since its invention.

The spoonful of Phillips' Milk of Magnesia neutralizes instantly many

times its volume in acid. It is harmless, non-irritating, non-stimulating.

Quick. You will never realize the corrective methods, never continue to suffer,

Safer To Stand Up

Mussolini Had Amusing Experience At Theatre In Italy

You don't have to believe this, to know it is true. A related story says that an American girl studying Italian went into a moving-picture theatre and suddenly realized that she was sitting just behind none other than II Duce Mussolini. His visit was, however, a secret, and successfully so, for no one recognized him in the half light of the cinema. He was enjoying everything hugely until, in the middle of the picture, a portrait of himself in heroic pose was hung on the screen. The spectators, of course, all arose, cheering wildly, all save Mussolini himself, who sat through the demonstration, fidgeting. His bad temper, however, a natural trait, when he got up and rip being recognized honoring himself, or to be recognized modestly seated. After the excitement was over an old Italian lady who had the seat next him turned over and said to "Signor, that's how we live, but it's safer to stand up."

NERVE TORTURES

A Condition From Which Both Men and Women Suffer

Hardly any condition of health causes more suffering than a strained nervous system. And often, unfortunately, but little sympathy is shown for suffers from the mistaken notion that the nerve can be controlled. Men and women alike are prone to get into nervous trouble and are blamed for it; temper, when it comes, is the cause. The first over-wary wife and mother, whose children have won her the broadest smile, whose anxieties have worried him until he is really ill, is the one who becomes run-down. Their nerves, like all bodily organs, need rich blood to keep them healthy. The simplest treatment is a course of Dr. William's Pink Pills, which enriches the body, tones up the heart, and stimulates good health and cheerfulness. Mrs. M. Cross Richman, of New York, writes: "I ended her nervous troubles. She says: 'I have suffered from nervous trouble ever since I was born and hundred and one things which in this case make life a misery. I have tried every kind of treatment, but nothing has helped me. Dr. William's Pink Pills. Under the use of this medicine I found my nerves were greatly improved. I am now well again.' The doctor's clear, ringing address on Friday night, has seldom been heard in any country from the lips of a citizen of another—New York Times."

Pleased With Trial Shipments

Good Market Created In Dutch East Indies For B.C. Apples

From trial shipments of apples made in 1928, it has been definitely decided that British Columbia apples will be marketed in the Dutch East Indies. During the three years a steady increase in market has been noted, especially in Java, nearly 50 per cent since 1926, and the prospects are that 1929 will see a still further increase. Australia, the nearest, is naturally the chief source of supply, followed by the United States Coast, eastward.

You can get these pills through your druggist or by mail from Dr. William's Medicine Co., Brockville, Ont.

Commands Atlantic Liner

Ronald Stuart Was First Canadian To Win the Victoria Cross In British Navy

At least one commanding officer of the Victoria Cross "walked his Water's" way to England for the Prince of Wales' dinner on Nov. 9, and none can deny that he earned his passage. This is Commander Ronald Stuart, V.C., R.N., of Canadian Pacific liner, "Duchess of York," the first Canadian to win the Victoria Cross in the British Navy.

Commander Stuart brought the C.P.R. liner "Princess Elizabeth" to the Pacific coast, where he sailed voyage last year and was then elevated to command of the crack Atlantic liner which he now calls.

All Night With Asthma.

Everyone knows attacks of asthma often keep people awake all night long. Fighting fits make men unfit for a day of business, and make mothers unable to care for their children. All this night keeping and lack of rest can be avoided by the use of Dr. Wm. H. Kellogg's Asthma Remedy, which positively does away with the attacks.

For All Men. — The sailor, the soldier, the fisherman, and all who are exposed to injury and the elements will find in the Canadian Ecteric Oil a true and faithful friend. To eat, pale, relieve colds, friends would consider him a true friend. This oil is excellent. It is a positive preventive of rheumatism, it is excellent. Therefore, it should be a part of every man's kit. This product will be part of the fall building programme.

A single-cylinder automobile made in Germany has a motor at the back.

New Grain Loading System

New and Improved System To Be Put In Operation At Montreal

A new and improved system of grain loading will shortly be in operation at the Port of Montreal. The system of loading grain carriers which is being erected on shore is one of the berths allotted to the Canadian Pacific Steamship, and the second will be set up shortly afterwards. It is expected to bring about improvements along this line and will be part of the fall building programme.

The next time a headache makes you stay at home—

Southern African Envoy

A minister from another dominion of the British Empire has arrived in Washington. Eric Louw, a South African, and Mrs. Louw, detraining at Duluth, were met by Ronald Campbell, chargé d'affaires of the British embassy who, in the absence of Sir Ernest Howard, will present the new minister to the American government.

"Made In Turkey" Week

Owing to the success of the first exhibition in Constantinople of Turkish national products, it has been decided to fix a week in August every year, to exhibit and sell only articles produced in Turkey.

Nova Scotia Voters Express a Preference For Liquor Control

Halifax.—In a plebiscite on the last question the number of Nova Scotia voters who expressed a preference for government control and sale exceeded by more than 28,000 the number of those who indicated their desire to leave the present prohibition law be kept.

Both Dr. H. R. Grant, leader of the prohibition forces, and J. H. Whinfield, heading the government control campaign, interpreted the figures as indicating the defeat of the proposed law.

Two questions were before the voters but thousands voted on only one. The questions were whether the proposed law, known as the Nova Scotia temperance act, should be continued; or whether a system of government sales should be set up.

With only 45 small polls unheard from out of a total of 1,137, the figure was 50,624.

For the temperance act, 61,672.

Against, 50,624.

For government control, 89,757.

Against, 41,180.

The vote will be interpreted officially by the government.

Premier E. N. Rhodes said he would wait for more complete information before making a statement.

Only Nova Scotia and Prince Edward Island of the provinces of Canada do not have prohibition laws.

An All-Canadian Menu

Veal Fricadelle Provencal Will Be Feature At Winter Fair

Ottawa.—A hearty, festive food gathered from coast to coast will be a feature, arranged by the agriculture department for the opening of the National Winter Fair at Toronto, on November 20.

There will be oysters from Prince Edward Island, fish from Nova Scotia, maple syrup from Quebec, beef from the west, fruit from Ontario, ham from Canada, a little something from Quebec, every province to suit the epicurean tastes of the cattlemen.

Lipton Building New Yacht

Shamburk V. Being Constructed Under New Building Rules

London.—The first of Sir Thomas Lipton's new challenger for the American Yacht Cup, Shamburk V, was laid at the Camper and Nicholson's yard at Gosport without ceremony.

Sir Spud was not present. The yacht will be built to a 76-foot rating under the New York Club rules and will be fitted with a motor. The rig will be the same that the defender of the cup thus promising a stirring contest for supremacy.

Fort William's Founder Dead

William P. McKeilar Came To Lake Head In 1863

Fort William, Ont.—Founder of the city of Fort William, Peter McKeilar, is dead, at the age of 91 years. He was the last of the McKeilar brothers who came to the lake head in 1863 and founded much of the town. The first settlement McKeilar was the first to discover gold, silver, copper, iron and lead in the Fort William area. He was a member of London and American Geological Societies.

New Position For Dr. Gunn

Victoria.—D. W. R. Gunn, at present identified with the health of animal section of the Federal Department of Agriculture with headquarters in Ottawa, has been appointed livestock commissioner to British Columbia, according to announcement of the provincial minister of agriculture, Hon. W. Atkinson. Dr. Gunn will assume his new duties on December 1.

Terminal Bins Again Full

Winnipeg.—By a forward bound of one-third of a million bushels in 24 hours, grain's storage at the end of the last of October stood at a record high, that for the season. A total of 75,407,000 bushels were packed into the high-grade bins—200,000 bushels more than at any time since the movement of 1929 grain began.

Fires Causes Serious Loss

Winnipeg.—Fire destroyed the large cattle barn at the Manitoba Agricultural College and ton of hay stored in the loft of the building. The loss is estimated at \$35,000.

W. N. U. 1810

Fire At E.P. Ranch

Old Original House Completely Destroyed By Flames

Calgary.—The famous ranch house built by the late E. P. Ross, the Prince of Wales, at the E.P. Ranch, near Pakidoon, Alta., was only saved from complete destruction by fire on Oct. 27, through the ingenuity of four stalwart ranch men and a timely "call for help." The Prince, commanding the old original house on the ranch which was being used as a power plant, and pumping station.

Shortly after noon, flames were observed coming from the old ranch house and the men, armed with pitchforks, ran across the ranch started fighting the fire under direction of Jimmy McMillan, ranch foreman.

Between the new house and the scene there was a shack which was a danger to the flames. The flames had reached this shack, the Prince's home could not have been saved.

When the fire looked as though it was won, Forreston McMillan ordered a team of horses to be brought to the scene. The four men threw a rope around the shed and the team dragged it out of the danger zone.

The lighting and water system on the ranch was cut off by the fire, and the property damage was estimated at \$2,000.

Will Erect Modern Elevators For Crop

France To Have Up-to-Date Facilities For Handling Wheat

Coulonges, France.—France is to have a modern system of grain elevators when it may seem, there are but few elevators in France, and most of those that are modern are in the ports.

France's wheat crop is stored rather haphazardly, Jean Henneuse, Minister of Agriculture, told a congress of farmers recently.

He said that the country must help itself to modern up-to-date elevators to handle 30,000 bushels a ton of this year's harvest.

Plan Pacific Air Liners

Twelve Direct Lines Between California and the Orient

Akron, Ohio.—Twelve monster dirigibles, the largest in the world, to be constructed and placed in regular operation between Southern California and the Philippines, in 1934, will be built by the Zeppelin Co. of Akron, according to Paul W. Litchfield, chairman of the board. The Pacific liner will carry 80 passengers and tons of mail, express and freight. They will cut in half the crossing time now made by the fastest boats.

Submarine Sets Depth Mark

Santa Cruz, Italy.—The Italian submarine "Tito Speri," 820 tons, submerged to the extraordinary depth of 343 feet, and remained there for two hours. Experimental hydrophone communication was carried on from the depth with the submarine "Selesa" on the surface.

Arcanare Is Defined

Dominion Statistician Settles Controversy Over Long Standing

Ottawa, Ont.—Every one of Canadian nationality is a Canadian; every one born in the Dominion is of Canadian nationality, except where family has been of three generations residence or more in Canada is a Canadian "in a special sense," according to a report issued by R. H. Costello, statistician statistician.

The report was sent to settle a controversy of long duration as to just what constitutes a Canadian.

Issue Is Postponed

Ottawa.—Investigation into the operation of the regulation which requires fifty per cent. British labor and material in cotton goods imports before they can obtain the benefits of the tariff preference has been postponed from November 7 to November 12. The tariff advisory board announced the change of date in a brief statement.

Russian Condemned To Death

Moscow.—According to dispatches of the Tass News Agency, twelve Russians were condemned to death in various parts of the country for crimes that ranged from murder and arson to anti-Soviet agitation. They included two priests, one Mullah and four rich peasants.

Act May Be Amended

Ottawa.—The next session of parliament may see amendments to the insurance act, so far as the contributions of insurance companies in common stocks, it was learned here.

VICTORY FOR FERGUSON FORCES IN ONTARIO

FAIRMA WOMAN EXPLORER

Lady Richmond Brown, distinguished woman explorer, who has arrived in New York from England. In January she left England to travel again, this time on an American expedition, with Mr. Mitchel Hedges, famous explorer, who was with Mrs. Hedges when his party discovered the Chinook Indians in the hitherto unknown part of Panama.

Edmonton Students Hear Unusual Lecture

Former German Officer Gives Address

At Edmonton Military Academy

Party	1929-1930	1930
Conservatives	93	77
Liberals	9	21
Progressives	3	11
U.P.	1	13
Ind. Conservatives	1	6
Liberal-Progressives	1	0
Deferred	1	0
Doubtful	3	0

Total 100

The landslide that swept the Ferguson government into power with 93 seats as against 77 for the Conservatives, 9 for the Liberals, 3 for Progressives, 1 for the U.P., 1 for Ind. Conservatives, 1 for Liberal-Progressives, 1 for Deferred, and 3 for Doubtful.

Ernest Dewar, who fought as a German officer in all the major naval engagements of the war, and to whom the address the academy invited, came to Alberta two years ago, and is now a progressive farmer in the Brightling district.

Albertan Wins Huge Sum

Quebec.—George Kowalewski, of Albertan, and James Westcott, of Saskatchewan, won the \$100,000 prize each among the 1,000 men in the Army and Navy Veterans' sweepstakes on the Canadian frontier at Salmon Arm, B.C., recently.

The draw was arranged so that each horse was drawn by two ticket holders. Both of these men drew double life.

Arab Boycott In Jerusalem

Jerusalem.—Two hundred Jewish keepers of the old city submitted a memorandum to the high commissioner, Sir John Chancellor, declaring that an organized Arab strike against the Jewish community in the settlement 100 miles from Salmon Arm, B.C., recently. Major J. McGregor, stationed at the Little settle-

ment, advised him to stay over, the news, over the wire.

The V.C. took no time in getting out on a hurried trip to New York from where he sailed on the S.S. Olympia for London. He raced 100 miles by auto to the railway station at Salmon Arm, where he arrived only fifteen minutes before his train left.

Major McGregor, whose valor on the field of battle while serving with the 10th Hussars in World War I, earned him the Victoria Cross, was given a hero's welcome.

The V.C. had no time in getting out on a hurried trip to New York from where he sailed on the S.S. Olympia for London. He raced 100 miles by auto to the railway station at Salmon Arm, where he arrived only fifteen minutes before his train left.

Favorite Star Goes C.P.R.

Traveling from Winnipeg to Montreal by Imperial Limited, Canadian Pacific Train, Colleen Moore, smiling Irish actress, opened her eyes to more than average wistfulness as she got her first glimpse of the prairies and the East from the luxurious compartment of a Canadian Pacific train de luxe.

She told interviewers that she had been in a condition of amazement all through her trip and the word "wonderful" was continually on her lips. She is now here stepping from the train at the Windsor station, Montreal, just before receiving an ovation from her countless admirers who gathered at the depot and later at the theatre where she appeared in person.

May Abolish Capital Punishment

Question Is Now An Issue In British House Of Commons

London, Eng.—The House of Commons adopted an amendment for appointment of a committee to report on the possibility of abolition of capital punishment.

When debate opened on a private members' bill to abolish capital punishment, Right Hon. John R. Clynes, secretary for home affairs, expressed government sympathy with the idea, but said the question of abolition did not touch upon the rock on which all projects for abolition had stood.

He agreed with the amendment finally adopted for study of the matter, which he hoped might lead to a general amendment.

In course of the discussion Labor Astor expressed great disappointment in the attitude of the minister. She had broken a ten-year custom earlier today by appearing at the afternoon session without a hat as most of the other women have done regularly.

Agreed with the amendment

to abolish capital punishment.

Victory Bonds Upholds Alberta Court Ruling

Bonds Liable To Death Duties

London, Eng.—The judicial committee of the privy council dismissed with costs the appeal of the Royal Trust Co. of Canada, a government-owned bank, against a decision of the Alberta court that bonds be liable to death duties.

The decision upholds an Alberta court ruling that succession duty is payable on certain Victory Bonds, portion of the estate of the late Wm. D. McMillan, former president of the Canadian Bank of Commerce.

The ruling is important as establishing liability of Dominion government bonds to succession duties tax and the only surviving Alberta court judge acted for the trust company.

McMillan died in 1926.

Ernest Dewar, who fought as a German officer in all the major naval engagements of the war, and to whom the address the academy invited, came to Alberta two years ago, and is now a progressive farmer in the Brightling district.

Albertan Wins Huge Sum

CANADIAN IMMIGRANTS
OTTAWA—In the five months from April 1 to August 1st, the British immigration reached a total of 47,250, which included 49,442 for the same months in 1928. Migrants from the United States increased from 15,968 to 18,187, while those from other countries declined from 55,646 to 43,315. Total immigration was 169,237, which represents a decrease of three per cent. compared with the same period of 1928. During the same period 1,567 Canadians returned from the United States with the intention of settling permanently in Canada.

THANKSGIVING

Thanksgiving Day, Monday, Nov. 11th, is a day of thanks, marking as it does, a day of thanks for those things with which a benevolent power has blessed us, and the day which brought a cessation to the wholesale slaughter of the men of six nations who marched to war because of military rulers who were obsessed with a vicious desire to conquer.

Thanksgiving should be observed as a day sacred to the memory of those men who sacrificed their lives in the titanic struggle that shook the very foundations of civilization. When the nations Europe struck down their arms November 11th, 1918, the guns ceased firing, soldiers laid down their weapons of war, and peace was declared. It was the end of carnage and bloodshed, the end of a reign of terror. It is fitting that this day be sacred.

And that the streets may not have been quiet, and that the blood still on the battlefields of Europe may be a holy sacrifice on the altar of permanent peace, statesmen are striving to weld together the nations of the world in a bond of brotherhood, smash the clay idols of the war lords, and declare an everlasting peace.

HALLOWEEN VANDALS

Boys and girls will have their fun on Halloween, and the average citizen raises no objection to their indulging in harmless pranks. But when this fun extends to the destruction of property it is carrying the thing too far.

And when that property is something which was provided for the amusement and enjoyment of the boys and girls, it shows a vicious impudence and an obnoxious impertinence.

One would think that in Inglewood on Halloween night boys would have had the swimming pool alone but they did not. They climbed the fence, tipped the diving platform into the empty tank, smashing some of the planks. They also did other damage at the pool, and it will cost considerable money for repairs.

The primary purpose of building the swimming pool is to provide boys and girls with a place to swim. The young culprits, who did the damage to the pool Halloween night showed utter disrespect to their benefactors. If it is their own pool, built for them by the people of the town and operated for their benefit, yet the boys deliberately set about to wreck the property. It fills one with a feeling of disgust.

There is some consolation in knowing that the damage at the pool is not the work of a large number of boys. It was done by a small group of young vandals, for the great majority of boys and girls appreciate the pool and are grateful to the town for its provision.

Perhaps, by this time, the guilty culprits are sorry for what they did. If they are made of the right stuff, they will come forward and acknowledge their guilt, and do what they can to make amends for the damage.

MAKE THEM PAY UP

There appears to be little, if any, redress for the man who receives a cheque which the bank returns to him marked "not sufficient funds."

Unscrupulous men have been known to obtain much goods and money in exchange for cheques which are N. S. F. Making a small amount in the back, there is a chance for a large sum of money, and pass it off on a man who transacts the business of the writer. Later the cheque is refused by the bank, as there is not sufficient money in the account. "The holder of the cheque has a redress. There is not enough money in it, and what are you going to do about it?"

The law court should afford some protection against the unscrupulous person who writes N. S. F. cheques. Give him a certain time in which to make the cheque good. If he fails to do this, send him to jail.

TO ONE WHO SINGS SADLY

(by B. E. Williams)
Sing of sorrow's misery!
By that very token
You have made it clear to me
Your heart is not broken.
He who knows the shattered dream
And the grey tomorrow,
Chooses for his singing theme
Anything but sorrow.

A FILM FANS' DILEMMA

(by Lucie)

For years I have loved from a distance.
I have always followed my star,
Content, in my humble abode,
Worship her face from afar;
But now that she's taken to talkies
I fear I shall have to withdraw.
For her voice is a most terrible squawk
Is. Suggesting a circular saw.

In gesture, deportment, and features
perfection is still in her reach;
she is still the most charming of creatures,

By visual standards a peach.
But what can one do with a catty
woman who is so raucous and raw?
That it drops all regard for her beauty

In a noise like a circular saw?

Ah would she has plans for regaining
The screen where they print every word.

And there remain true to her training,
Content to be seen and not heard.
But, alas, I'm afraid that no change

Will occur to conceal the ad-flaw
in the girl with whom an angel

But the voice like a circular saw.

Unspeakable

Mrs. Withers had been to the theatre to see a film. She had been to the theatre to see a film.

"How did you like it, Nell?" asked her friend.

"All right enough, but to tell you the truth, I rather ave been to one of the unspeakable ones."

Pepping up Longfellow

The shades of night were falling fast.
The guy stepped on it and rushed past.

A crash—died without a sound.

They opened up his head and found—
Longfellow!

Local News

Dr. Simmons, of Gleichen, was a visitor in town on Tuesday.

Miss Lucille Harrison was in Calgary over the weekend.

Harry Mauer has gone to Calgary to take an engineering course in the Institute of Technology.

Miss Muriel Simpson, of Calgary, is visiting at her home here this week.

Wm. McLawa went to Calgary on Tuesday to attend supreme court sittings.

Robt. McLean, K. C., was a business visitor to Calgary over the weekend.

H. O. Brodin, Dr. A. G. Scott, and Dr. B. E. Barton, were business visitors to Calgary last Saturday.

Misses Amelia and Marie Gronberg were visitors to Calgary last Saturday.

Miss Beatrice Leonard left last Saturday for Chicago where she will go in training in a hospital.

Mr. and Mrs. Chas. Nutter, of Sylvan Lake, were in town for the Halloween Masquerade last Friday.

Mr. and Mrs. W. S. Weir were in from Makepeace last Friday, and attended the Halloween masquerade dance.

Next Monday, November 11th, is Thanksgiving Day and Armistice Day. It is a public holiday, and the stores and banks will be closed.

Bob Scott, provincial government land man, left on Tuesday for Edmonton, having completed his summer's work here.

Mr. and Mrs. Duncan Clark, of Calgary, were in town Tuesday and Wednesday visiting Mr. Clark's brother, John Clark, of Crowfoot Creek, who is ill in the hospital.

Lorne Webster, a former Bassano business man, is directing a play for the Green Room Club in Calgary. The play will be ready for production in about a month.

HUSSAR U. F. A. HOLDS MEETING

A meeting of the Hussar U. F. A. was held at Wednesday, Oct. 30th. Roy Hulen was acting chairman.

Feed harley, car screenings, reported \$16.50 f.o.b. Hussar, or ton; cleaned standard elevator screenings \$25.50 per ton. Peter Reinhold offered to go to Olds to scout about for feed barley.

In reply to the request from the local men to have a telephone installed in the station, the following was received:

Mr. Muller: Dear Sir: Acknowledging your letter Oct. 16 regarding telephone in your station at Hussar. It is the practice of this company to permit the Alberta Government Telephone to install telephones in our stations. We do not charge for this, provided that we are not responsible for any charges, either for installation or maintenance or for rental. This is the standard practice of the company in Manitoba, Saskatchewan, and Alberta. If you desire to place a phone in the station at Hussar on this basis, we have no objection.

All should attend the Wintering Hussar gathering on Nov. 8th and hear Mr. Garland.

The provincial constituency convention at Bassano on Nov. 15 is going to be an outstanding event.

Following is the letter received from a question regarding the small expenditure of money for road work:

Edmonton, Alta.

Oct. 23, 1929

Dear Sir: I have to acknowledge receipt of yours of the 16th instant, in which you ask to be advised as to why larger expenditures were authorized for road work in the D. 212 district of Bassano. You state that approximately only \$7,000.00 has been spent this year against ten or twelve thousand dollars in other years.

In reply I wish to advise that this governed almost wholly by the amount of taxes paid in the road improvement fund.

I find in my records that in the first of the fiscal year 1928 there was a credit in the trust account of your district in the sum of \$15,000, while in 1929 this amounted to between eight and nine thousand dollars.

In addition to the expenditures by the Provincial Government, the roads and bridges other costs are incurred such as destruction of non-timber woods by the Department

NOTICE

To: HORACE LIQUID CHAPENTERIE, formerly of Bassano, Alberta.

TAKE NOTICE that an action No. 26571 has been commenced in the Supreme Court of Alberta, in the Judicial District of Calgary, by the Canadian Pacific Railway Company against you for cancellation of Agreements for the cancellation of the 10th and 11th districts of the Interim Water Agreement dated the 10th day of August, 1917, covering the N. W. quarter of Sec. 26, T. 21, R. 18, West 40th Meridian, in the Province of Alberta, and that portion of the W. half S. 30 (lying south and east of Canal) T. 21, R. 18, W. 4th district, in the Province of Alberta, Canada Pacific Railway Company as Vendors and you as Purchaser, and for further and other relief.

AND FURTHER TAKE NOTICE that if you do not prior to the 10th day of December, 1929, deliver

(a) Statement of Defence, or

(b) Demand that notice of any claim or cause of action in this action be given to the Plaintiff Company will be entitled to proceed in the action without further or other notice to you.

DATED at the City of Calgary, in the Province of Alberta, this 4th day of November, A.D. 1929.

"C. H. SMITH"
Clerk in Chambers.

Approved:

L. F. CLARRY,
M. C. 18-19c

Agreeable, the case of the Indians and the improvement of Public Health, and the mother's allowance by the attorney general's Department. Under these circumstances we were able to authorize only the sum of \$7,500 from trust account for road improvement during 1929. This was due to the fact that more taxes had not been received.

In addition to this amount there was a grant from the Revenue of the province of \$1146.

For your information I may say that our district engineers are advised early each season as to the amount available from trust account that governed by the amount of credit at that time.

Sincerely yours,

M. F. Keith,
Chief District Engineer.

The next meeting will be held on Nov. 12, at 7:30 p.m.

A LIFE assurance policy is a will that needs no lawyer to explain and no judge to interpret.

It is clear, final, unbreakable.

If, instead of being paid in a lump sum, the proceeds of your policy are left to the Sun Life Assurance Company of Canada, you obtain, free of cost, the most expert fiduciary service in the world for your dependants.

Your assurance estate is conserved to meet obligations not fully matured at your death; to care for your wife; and to educate your children.

The earnings and any part of the principal can be paid over at regular designated intervals as desired.

Your modest funds are merged with those of a great corporation and share in the wonderful earnings from that Company's investments.

Your affairs can't be muddled by an incompetent neighbour executor.

NO RISK • NO WORRY • NO EXPENSE

The best way to create an estate, and the best way to conserve an estate, is by life assurance.

Consult a Sun Life representative for particulars.

WORLD HAPPENINGS BRIEFLY TOLD

Mario, of Bremenza, most uncouth and perhaps loudest and least of Europe's kings, celebrated his 51st birthday on October 29.

It is announced that E. W. Beatty, K.C., president of the Canadian Pacific Railway, has accepted appointment to the Canadian Olympic committee.

During September, the first month of the apple-shipping season, 89,476 barrels left Halifax for the overseas markets. This was more than double the exports of September, 1928.

Kaye Don, the racing car driver, announced that an automobile in which he will seek a world's speed record, at Daytona Beach, Florida, has been nearly completed.

During his speech to the Canadian Club in Quebec, Sir MacKenzie confided to his audience that he proposed to make a trip to Hudson Bay, no matter who attempted to deter him.

Six men, jumping simultaneously from a 10-passenger airplane, demonstrated the possibility of safe descent from a plateau where the plane was unable to land at Rockwood, British New York.

Lowest Infant Death Rate

Report Shows New Zealand Has Lowest Rate

"New Zealand's the best place in the world to be born. Babies born there have more chances of living than those of any other part of the globe."

That is Sir Carrick Robertson's way of expressing the fact New Zealand's death rate among infants is the lowest on record for any country.

"The great people we've got are much better in New Zealand than in other first rate countries," Sir Carrick added. "In the main health conditions are good, but we have some special ones that are peculiar to certain parts of the country, and these are quite a problem."

"Gout" is, perhaps, one of our worst diseases. It is caused from a lack of exercise in the sun, and there is a good deal of it in New Zealand thus affected. The younger generation is being protected to a certain extent by being fed iodized candy at school and many of the adult uses foodized salt to combat the disease. Cancer, too, is just as bad in New Zealand as elsewhere."

Use Gopher Pelts

Gopher fur ranching may be the next development in Alberta. The Lethbridge Herald reports that an eastern firm is endeavoring to secure a large number of gopher pelts for a commercial purpose. Information and a communication to that effect has been received by the Board of Trade.

Her Ideas Of The Navy

A young sailor on country road: "Sir, do ye know my son, Jack, in the navy?"

Sailor: "Which ship is he serving in?"

Old lady: "What! Be there two?"

Asthma

— is relieved by Minard's Spread on brown paper and apply to throat. Also inhalate.

Stratford Players Coming

Famous Festival Company Is Again Appearing In Western Canada

Regina.—For an engagement of three nights, beginning on Monday, Nov. 11th, the famous Stratford-Urbaniak Festival Company, from the Memorial Theatre at Stratford, birth-place, will appear at the Grand Theatre, Regina, presenting in the order named, "Much Ado About Nothing," "Romeo and Juliet," "Julius Caesar" and "Measure for Measure."

The splendid artistic qualities of this organization are well known to playgoers through the appearance of the company here last season, when an entire different program and list are those that were revived at the Memorial Theatre last summer. The company is almost the same as last season, with only such changes in personnel as are necessary to fit the altered repertory. Among the players are: George Hayes, Wilfrid Walter, Roy Byford, Eric Maxon, Gordon Bailey, William Calvert, Eric Galt, John Wootton, etc.

H. R. Eric Lee, Jack Blight, Geoffrey Wilkinson, C. Rivers Gadshy, Noel Hill, Joyce Blund, Fannie Drake, Mary Holder, Oliva Walter, Miriam Adams, Dorothy Franché and others.

On Friday evening, "Much Ado About Nothing"; Saturday evening, "Julius Caesar"; Wednesday evening, "Twelfth Night."

Beer Brewing On Increase

More Beer Brewed In Canada Last Year Than Previous Year

More beer is being brewed in Canada. In 1928, gross production of breweries reached a value of \$69,910,300, an increase of \$11,640,000 over 1927. Total production was \$40,712,912, as compared with \$34,056,722 in the preceding year. At the same time the number of establishments increased to 78, five more than last year. An additional 100 have been opened up since.

Mr. Smith said to the plaintiff quite casually: "Would you mind showing the jury how high you can lift your arm?" "I can't," the boy replied with a smile, which dimpled his face. "Now," said Mr. Smith in the same causal tone of voice, "show us how high you could lift it before the Lord Birkenhead's insight into the man's mentality had won the tramway company their case.

Just Right For Upset Stomach

For after-eating distress, gas, sourness and bloating, this quiet and positive remedy has proved to be just right. Relief, certain and gratifying, almost instant and good words obtainable from any good druggist, last for a long time.

Caught Him Off Guard

Plaintiff Loses Damage Case Through Cleverness Of Lawyer For

A legal friend of mine told me the other day a good story illustrating the value of cross-examination in Canadian conditions in the last few years, but there is one which stands out above and beyond all others, and that is the important given by success in a case which was large in money value.

We hope the time will come when our property will be

as easily balanced as between agriculture and the development of cities and towns.

It is the law, however, that we are

almost inevitably prosperous."

The new optical system installed on the steamship "Batavias" consists of 100 cameras, 100 projectors and 100 screens.

The cameras are horizontal with the point to port another is horizontal, with the point to starboard, and the third is vertical, with the point upwards. When lighted, the arrows indicate the direction: "I go port," "I go starboard," and "I continue in this direction."

Both Dutch and British authorities are closely watching the experiment well, in view to the general adoption of the plan.

The Product Of Progress

Heat

Pre-Historic Man

built his fire at the mouth of his cave. To warm his dinner he had to stand over it, and to protect his fire while his hand was chilled—a crude, primitive, inefficient method. The method of the ordinary heating stove is somewhat similar, but the FURNACETTE operates on a different principle. It heats all the air in the house—not only that close to the fire, but the air in all the rooms. It does this by keeping the warm air in continuous circulation, and the result is several times faster than in any other type of furnace. The cooler air is drawn in at the base of the FURNACETTE; it is heated, humidified, and discharged out through the top of the FURNACETTE, keeping up a continuous circulation, and warming the farthest corners of the home.

The FURNACETTE is built in three sizes:
 No. 1. Grain enamel finish; cast; large size,
 23 inches square \$100.00
 No. 2. Grain enamel finish; brick lined;
 23 inches square \$65.00
 No. 3. Plain finish 20 inches square \$45.00

Local News

Carl Herman, of Cluny, is a patient in the hospital here. He was injured last Monday in an automobile accident.

John Clarke, a farmer of Makepeace, died in the Bassano Hospital early Friday morning, Nov. 8.

R. P. Findlay, a former manager of the local branch of the Canadian Bank of Commerce, has been promoted to the management of the bank division at Sydney, Nova Scotia. For the past two years Findlay has been manager of the branch office in Owen Sound, Ontario.

HIRTHS

The following births occurred at the Bassano Hospital:

A baby girl, to Mr. and Mrs. Andrew Drown, of Hussar, on Sunday, Nov. 5.

A son, to Mr. and Mrs. A. P. Schindeler, of Dundee, on Tuesday, Nov. 6.

A son, to Mr. and Mrs. C. C. Wilson of Rockford, on Thursday, Nov. 7.

THANKSGIVING AND ARMISTICE SERVICE AT KNOX CHURCH

The service at Knox Church on Sunday evening will be devoted to the theme of Thanksgiving. The minister will deliver a sermon in keeping with the occasion. The choir will provide several special numbers. The church will be filled with people from the town and surrounding country who will take this opportunity of joining in the National Thanksgiving. On Armistice Day, Monday, Nov. 11, a short memorial service will be held commencing at 10:45 a.m. The two-minutes silence will be observed and fitting tribute will be paid to the memory of those who fell in "Flanders Fields."

WEDDING

KNUDSEN—ANDERSEN

A quiet wedding was celebrated at the home of Mr. and Mrs. E. F. Mauer on Thursday evening, Oct. 31 when Sigrid Andersen, formerly of Hessel, Denmark, and Karl Knudsen of Bassano, were married in the home of her mother, Mr. Rev. P. C. McCrae officiated at the ceremony. Mr. and Mrs. Knudsen will make their home at the Mauer farm, three miles northwest of Bassano.

CHANCELLOR NEWS

(continued from front page and a good many of the old timers of Standard district met to honor Mr. and Mrs. Teogood and family on their 25th anniversary. The meeting was opened with a short service of thanksgiving followed by supper at 11 p.m. During the supper hour Mr. Mair asked Frank Watson to present, on behalf of friends present and absent, Mr. and Mrs. Teogood with a handsome complete Linenware dinner set. Mr. Watson in a very neat speech spoke of all the work Mr. Teogood had done and of how they had worked for the good of the community. In a few well chosen words, Mr. and Mrs. Teogood thanked everyone. A short program followed, and then dancing was enjoyed for an hour or two.

Mr. and Mrs. T. Lee were visitors to the meeting. Mr. and Mrs. Teogood have gone to work at Turner Valley. More than half the folks of Chancellor are wintering either at Black Diamond or Turner. These famous oil cities are rivalling Los Angeles and Palm Beach in popularity this winter.
